UNIVERSITY**

COLLEGE OF FOOD, AGRICULTURAL,
AND ENVIRONMENTAL SCIENCES

Environmental Education in Action

ENR 5194 Group Studies

Learn best practices for implementing hands-on, outdoor environmental education including:

- Exploring theories and methods for developing environmental education activities
- Connecting formal (K-12) and informal (e.g., museums, zoos) learning strategies
- Connecting with science curriculum (state & national standards)
- Connecting with other disciplines (e.g., arts, literacy)
- Using universal design to promote inclusivity
- Leveraging community science & stewardship for learning

For more information, contact **Dr. Marijke Hecht** at
hecht.102@osu.edu

Prerequisites: ENR 3611, graduate student standing, or permission of instructor for undergraduate students outside of ENR.

ARE YOU AN UNDERGRADUATE IN THE SENR NATURAL RESOURCE MANAGEMENT MAJOR?

This class will count for 3-credits towards the **Visitors Services sub-specialization** in the Parks & Rec specialization.
In another specialization? Contact Dr. Hecht to discuss options for credits counting towards your specialization.
