

Acknowledgments

Gratitude is extended to the more than 80 individuals who contributed to the creation of this document through participation in stakeholder meetings, serving as technical experts, reviewing text, identifying additional contacts or resources, and offering suggestions on the process. As with any complex process involving many disciplines, careful planning must be balanced by a willingness to adapt. The Task Force was highly flexible and willing to use interim feedback to guide this 2-year process. This effort was funded by the Natural Resources Defense Council with additional financial support provided by the Columbus Foundation and would not have been possible without commitments from both the City of Columbus and Byrd Polar and Climate Research Center at The Ohio State University.

CCAP Task Force Members

Jason Cervenec (Chair), *Byrd Polar and Climate Research Center, The Ohio State University*
